ABOUT ME

Dedicated and passionate software developer with a strong foundation in C, C++, Python, and Java, specializing in the MERN stack. Thrive on solving complex problems through innovative and efficient solutions. Eager to continue growing and contributing to cutting-edge projects that make an impact.

SKILLS

- ❖ C,C++
- ❖ Python
- ❖ Java
- ❖ MERN Stack Developer

EDUCATION

- ❖ Information Technology | Goa College Of Engineering
CGPA: 9.183 | 2022-2026
- ❖ XII (NCERT) | Rosary Higher Secondary School
81% | 2022

PROJECTS

- ❖ **Auto Reply AI Chatbot**
 - Automates the process of interacting with a chat application, specifically designed to analyze chat history and generate humorous responses
 - Responses are generated after processing the chat history using Gemini's 1.5-flash Api model
- ❖ **Password Manager**
 - Using React, Tailwind CSS, MongoDB & Express JS
 - Developed using Vite Framework
- ❖ **Jarvis Voice Activated Virtual Assistant**
 - Designed to perform tasks such as web browsing, playing music, fetching news.
 - Responding to user queries using Gemini's 1.5-flash Api model.
- ❖ **Responsive Spotify Clone - works well across different devices and screen sizes.**
 - Technology Used includes HTML, CSS, and JavaScript.
 - Aims to replicate some of the key features and user interface elements of the popular music streaming service Spotify.
